'Frisco's School Board Has Rescinded Segregation Resolution.

San Francisco, Cal., March 15.—The San Francisco board of education, keeping its word with President Roosevelt, Wednesday unanimously rescinded the resolution of last October by which the Japanese were segregated in the public schools and adopted an alternative resolution in accordance with the understanding reached at the Washington conference between the president, Secretary Root, the school board and Mayor Schmitz. The board then sent the following telegram:

"At a regular meeting of the board of education held this afternoon, a resolution as agreed upon with you was adopted unanimously. Certified copy was given to United States District Attorney Devlin."

The president having telegraphed Mayor Schmitz on Wednesday that he would direct Mr. Devlin to dismiss the suit against the board in the United States circuit court and the supreme court of California as soon as the action stated should be taken by the board, members of that body look upon the Japanese incident as now closed insofar as San Francisco is concerned.

There is, however, it is stated, an unwritten reservation to the effect that should the president's reciprocal promises to the board regarding discretionary restriction of coolie immigration to California not be carried out, the board may feel at liberty to readopt the resolution and again segregate Japanese.

ROBBERS DECAPITATE VICTIMS.

Horrible Scene Witnessed by Three Persons Drives Them Insane.

Yelisavetgrado, Russia, March 14.—An estate in this vicinity was attacked by robbers Wednesday, who bound and decapitated the proprietor, five laborers and a woman. Two witnesses of the slaughter, also a soldier, who hid in a hay stack and a child, lost their reason. The soldier subsequently died in a hospital in delirium. The booty secured by the robbers amounted to $1,000.

On the occasion of the funeral Wednesday of a prominent reactionary who was killed by revolutionists, an attempt was made to start anti-Jewish excesses.

The rioters began at Jutz street and commenced sacking the bazaar and the Jewish lodging, but they were stopped in the depredations by the prompt intervention of the troops. Several Jews were wounded, one of whom died in the hospital. The local rabbis have telegraphed complaints to the lower house of parliament, and to Premier Stolypin.

Fritz Scheff Seriously Ill.

New York, March 15.—Fritzi Scheff, who had to abandon her tour with Mlle. Modiste, at Cleveland for treatment, is seriously ill with peritonitis at the hotel St. Rigis. Her manager, Charles E. Dillingham, announced last night that she was resting easily. The singer's illness was at first diagnosed as ptomaine poisoning. Appendicitis was then suspected. At the St. Regis hotel it was said that Miss Scheff's condition on Tuesday night was alarming, but that she was better Wednesday.

Volcano In Eruption.

Seattle, Wash., March 15.—Word has been received by the Post-Intelligencer from Valdez, Alaska, that the volcano on the island of Akutan, off the peninsula of Alaska, and not far from Unalaska, was in active eruption when the steamer Dora passed the island at 2 a. m. of Feb. 28. All the passengers were aroused to witness the sight, which, is said to have been a magnificent one At about the same hour, a severe earthquake occurred at Unalaska.

Will Inaugurate Detective Service.

London, March 15—A detective service, such as is in service in Scotland Yard, is to be inaugurated in Spain. In the movement King Alfonso himself is taking a great interest, and he is being aided in formulating his plans by Queen Victoria. Inspector Arrow, of Scotland Yard is said to have been tendered the position of chief of the department of inspection at a salary of $5,000.

ARREST IS MADE OF AUGUSTA MAN

J. S. Nixon Arrested at Instance of Government.

EXPRESSES SURPRISE OF ACTION

He Is Charged with Violating the Bankruptcy Laws by Accepting More Than the Ten Per Cent Due Him.

Augusta, Ga., March 15.—J. S. Nixon, president of a wholesale grocery firm, and one of the most prominent men in the city, was arrested on a charge of violating the bankruptcy laws by accepting more than the 10 per cent that was due him The case grew out of the failure of the H. C. Morrison Supply company.

Nixon was placed under bond for his appearance before a United States commissioner. The punishment for violation of this law is two years in the penitentiary without the option of a fine.

Mr. Nixon is one of the most prominent men of the city, in a business way, and otherwise. He has several brothers who are among the leading business and social figures of Augusta. He is married, and has one son, who is away at college. He is also head of the Savannah Transportation company, which controls the two lines of steamers plying between Augusta and the coast. He is represented by Judge J. R. Lamar. Assistant District Alex Akerman, of Macon, is in the city to represent the government at the hearing.

His friends are very indignant over the matter, and claim that the charges will fall through.

Mr. Nixon expressed great surprise at the action taken, as he said he had done nothing to violate the law.

He said one of his companies had a claim against the H. C. Morrison company for a considerable sum, and he was asked to sign a petition agreeing to accept a compromise of 10 cent on the dollar. This he declined. Later, he was visited by an attorney representing a number of the creditors of the H. C. Morrison company, and asked if he would sell his claim. Mr. Nixon said that, like any other business, after some negotiations, the sale was made and he transferred the account.

He said he did not know Morrison in the transaction, had nothing to do with Morrison, and after the sale, took, no part in accepting or rejecting the compromise which was submitted to the court; that he made no concealment of what he had done, and when other creditors came to him to know what steps he proposed to to take he said that he had been paid his claim, and had no further interest in the matter.

Meets Death in Flames.

Kingston, Ga., March 15—One man was burned to death and others injured in a freight wreck and fire which followed it here at an early hour Thursday morning. The dead man is Will Maulding, flagman, who recently began work for the road. After the smash of the trains, fire broke out. Mauldin, who was pinioned beneath a car, was burned to death. The collision was a rear-end smash of two freights on the Western and Atlantic railroad, trains Nos. 17 and 13 colliding. The injuries sustained by other trainmen are not believed to be serious. Their names have not been ascertained. Several cars were badly damaged by the fire before it was finally extinguished.

Thirteen Killed; 11 Injured.

Johannesburg, Transvaal, March 14—Dr. A. Adam Jameson, ex-commissioner of lands, was killed, with 12 other persons, at about midnight, in the wreck of a train due to a washout. Eleven persons were injured.

Boundary Treaty Ratified.

Buenos Ayres, March 15.—Paraguay and Bolivia have ratified the boundary treaty which was signed here on January 12.

SHOT HIS WIFE AND WAS FINED

Rotureau Was Sentenced to Pay $300 at Savannah, Ga.

Savannah, Ga., March 15.—E. L. Rotureau was sentenced by Judge George T Cann, in the superior court to pay a fine of $300.

Rotureau was convicted of shooting another, not in his own defense and recommended to the mercy of the court. The "other" whom he shot was his wife, who narrowly escaped death as a result of the wound. She is now well, however, and had no desire to have her husband prosecuted.

A negro woman was the principal witness in the case. She said she was present, but did not see the shot fired, as she was busy at some work and her back was turned. She knew all about the dispute leading up to the shooting, however, and described the manner in which Mrs. Rotureau had applied a horsewhip to her husband. He had retired temporarily, and she had secured a revolver.

When he returned he tried to take this from her. A struggle for its possession ensued, and Mrs. Rotureau received the bullet after it had passed through the ball of Rotureau's hand.

The couple were very well known, and the shooting created a sensation at the time.

Will Insist Upon a Change.

Buenos Ayres, March 15.—Rumors are afloat to the effect that former President Roca, who is expected here shortly, will take sides with the authorities of several provinces against the federal government in insisting upon a change in the cabinet. The former president's arrival here is awaited with great interest. He has expressed the desire that no demonstration be made in his honor.

Rio Janeiro, March 15.—Former President Roca, of Argentina, is meeting everywhere with demonstrations of friendliness and esteem. He was visited Wednesday by President Pena, who will give him a banquet.

Take the Pledge and Are Discharged.

London, March 15.—The authorities at various places in England and Ireland are trying the plan adopted by Judge Pollard, of St. Louis, Mo., of discharging prisoners arrested for intoxication on their taking the pledge to abstain from drinking and the national independent temperance party is advocating legislation along this line. In several places markedly good results have followed applications of this method, in one instance in Leicester, a confirmed drunkard having become a teetotaler and being reinstated in a position from which he had been discharged because of intemperance.

Brinson Has $75,000 Fire.

Brinson, Ga., March 15—Wednesday afternoon at 3:30 o'clock fire broke out in the lumber plant here owned by the Stewart Lumber company On account of a stiff wind, the fire was uncontrollable for nearly an hour. Three dry kilns and quite a large quantity of lumber were destroyed. The damage amounted to $75,000, which was partly covered by insurance. The fire originated from a defective flue.

A $20,000 Fire at Elberton.

Elberton, Ga., March 15.—The large frame warehouse of the Elberton oil mill was destroyed by fire Wednesday afternoon. The building contained several hundred bales of lint, a large quantity of soap and stuff all destroyed. The total loss is about $20,000.

Woman Attempts Suicide.

Athens, Ga., March 15.—Mrs. Ed L Taylor, wife of E. L. Taylor, on South Lumpkin street, attempted suicide by using a drug. For a long while she was unconscious and critical. No cause is known for the attempt.

Congressional Party at Panama.

Panama, March 14.—All the members of the congressional party, headed by Speaker Cannon, expressed great surprise Wednesday at the work that has been done on the Panama canal. The party visited both La Coca, on the Pacific side and the famous Culebra cut.

TERM IN STOCKADE FOR CRUTCHFIELD

Judge Broyles Gives Him Seven Days' Sentence.

STRONG REPRIMAND BY JUDGE

Is Also Fined $100.75 for Striking Hon. John Temple Graves—Judge Says the Jury Should Have Given Him Imprisonment for Life.

Atlanta, March 15.—"Crutchfield, the jury jury made a great mistake when you were acquitted on the charge of shooting your wife. You should have been given a long term in the penitentiary. I'll impose a fine of $100.75, a term of seven days in the stockade, and bind you over under $1,000 bond to the state court on the charge of assault and battery for the unprovoked assault you made on Colonel Graves."

Such was the judgment imposed on J. H. Crutchfield by Recorder Broyles after hearing the evidence of Colonel John Temple Graves, editor of the Georgian and News, whom Crutchfield struck in the back of his head, felling him to his knees, in front of Brown & Allen's drug store, at the corner of Whitehall and Alabama streets early Tuesday afternoon.

Crutchfield appeared at the police court before the recorder took his seat, as did Colonel Graves and a large number of his friends. Crutchfield sought Colonel Graves in the court room, and apologized for making the assault upon him, declaring that he had been misinformed and held Colonel Graves responsible for articles about him published in the Georgian. Colonel Graves, however, declined to discuss the matter with Crutchfield, further than to say that the attack was unprovoked and cowardly, and that putting aside all personal consideration, he owed it as a duty to society to appear in court against him.

Colonel Graves related the circumstances of the attack, stating that he was walking down the street with Walter P. Andrews, when, without warning he was felled to his knees by a blow delivered with great force on the back of his head. Mr. Andrews testified as to the attack, his striking Crutchfield, and the manner in which the latter had backed off with his hand on his hip pocket.

"Judge," said Crutchfield, "I plead guilty. I was in the wrong, and I am sorry it happened. I struck Colonel Graves with my open hand on the side of the face, thinking he was responsible for what was written about me in his paper. I apologized when I found out he was not responsible for it."

"Don't you think you did enough to make the papers roast you?" asked Judge Broyles.

"They wrote things about me without talking to me," said Crutchfield, exhibiting a newspaper article, the head lines of which credited him with the statement that he had been through hell since he shot his wife.

She Leaped to Her Death.

Cincinnati, March 15.—Leaping head foremost from a window ledge on the thirteenth floor of the Traction building at Fifth and Walnut streets, Gertrude Hanisch, aged 20 years, a stenographer, committed suicide in the sight of hundreds of people.

Withdraws His Resignation.

New York, March 15.—Dr. Henry Van Dyke, whose resignation from the Princeton faculty was recently announced, has withdrawn his resignation in response to an overwhelming demand for the official alumni and students of Princeton.

Will Leave Shortly for Greece.

San Francisco, March 15—Professor Edward B. Clapp, head of the Greek department of the state university, has been appointed professor of Greek in the American School of Classical studies at Athens. He will shortly leave for Greece.

A CARD TO VOTERS.

Mayor W. R. Thomas Calls Meeting of Citizens for Monday Evening.

To the Citizens of Gainesville:

Having been requested by a great number of our people to call a public meeting of the citizens of this city to be held at the court house on Monday night, for the purpose of considering suitable candidates for the various offices to be filled at the next city election, I hereby, in deference to the wishes of those who have requested it, call a public meeting of the citizens of this city to be held at the court house on Monday next at the hour of 8 o'clock p. m.

There will be no sign, grip or pass word necessary to entitle any citizen to enter, and every man who believes in an honest administration of the city government, in the impartial enforcement of the city ordinances, in the preservation of the public peace and the public morals, in the continued prosperity of the city, in making public improvements, owning its own electric light plant, and in upholding the name and reputation of our city, is cordially and earnestly solicited to be present. Every man who has a grievance or a kick is asked to be there. Outside of Tampa and Jacksonville no city in Florida is enjoying such unprecedented prosperity as Gainesville, and her future is just what the people of Gainesville intend it shall be. W. R. THOMAS, Mayor.

MR. DAVIDSON HERE.

Great Chautauqua Leader of the United States Visits Gainesville.

Hon. W. L. Davidson of Washington, who is a founder and manager of chautauquas, and probably the leader in this direction in the United States, spent Friday in this city, having come in connection with the Florida Winter Chautauqua, one of Gainesville's most advantageous and most enjoyable enterprises.

While the Chautauqua, which is really an adjunct of the Bible Conference, was founded by Dr. Clarence B. Strouse, its support has come largely through Dr. Davidson, who has been of material assistance to Dr. Strouse in securing a program.

Dr Davidson is a man of pleasing address, and is quite popular in the Chautauqua field. He has made a great success of his Chautauqua system, which extends over the entire South, and his efforts in the matter of procuring the best talent are appreciated.

THE SUN MISINFORMED.

Water Is Low But Fish Are Not Dying in Alachua Lake.

On Friday morning The Sun contained a notice to the effect that the water in Alachua lake was the lowest it had been for fifteen years, and the fish were dying from lack of water to accommodate them.

It appears from reports received from fishermen Saturday, that The Sun was either in error or was misinformed as regards the fish dying. While it is true that the lake is low, the lowest for the time specified, there has been no serious results, it is reported, and no fish have died on account of the low condition of the lake.

If a rain does not occur within a short time, however, it is the intention of the Gainesville Fish Company to put in a dam for the mutual protection of the fishermen. At present the fish are all right, and the rumor of dying was unfounded, it is said.

SHOOTING EXHIBITION.

The Winchester Shooting Team Entertained Large Crowd.

There was an interesting exhibition of marksmanship on West Liberty street Friday afternoon, the participants being Mr. and Mrs. Ad Topperwein of San Antonio, Texas, the world's champions, and J. Mowell Hawkins, a crack shot of Baltimore, Md., who are representing the Winchester Repeating Arms Company.

The exhibition was largely attended, and was a most remarkable one. There was present a number of ladies, and all appeared to enjoy the exceptionally fine work of the artists.

The Sewerage Tank.

H. C. Story of Palatka, one of the valued employes of McKenzie & Sons, contractors, has arrived in the city.

Mr. Story will superintend the work of constructing the antiseptic tank for the sewerage system, of which his firm has the contract. A force was employed Friday, and the work will be pushed to completion as rapidly as possible. It is expected that the same will be

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the appoval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

SERIOUS CUTTING AFFRAY.

Ivan Holder and S. L. Crews Have Trouble Over Land Lines.

Information reached this city Friday to the effect that Ivan Holder and S. L. Crews, two well known and prominent planters of the Santa Fe district, became involved in a dispute on Thursday over a land line, which resulted in a fight, when knives were brought freely into play.

It is said that Mr Crews was severely injured, having sustained two ugly gash wounds in the side, two in the arm and one in the back.

A physician was summoned and dressed the wounds, but Mr. Crews was reported in a dangerous condition Friday night.

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has ascertained a fine germ which eats the life from the roots of hair [illegible] Newbro's Herpicide destroys the germ and consequently restores the hair to its natural state.

FRIDAY BIG DAY AT CHAUTAUQUA

Schools of Phys cal Training and Cooking Drew Large Crowds.

MRS. LAURA FIXEN'S TALK

It Was an Address Full of Good Sense and Common Judgment, and Went Straight to Hearts of Those Who Heard it—Program for Today.

Friday's program at the Florida Winter Chautauqua was a most interesting one, and was enjoyed by the large number present, who were not only entertained, but instructed.

The day's exercises were opened with the school of physical education, by Prof. Rucker and Mrs. Adams, at 9 o'clock, which was followed at 10 o'clock by the usual Bible lecture and lesson by Prof. J. R. C. Brown of Virginia. At 11 o'clock the school of health and cooking, conducted by Dr. Geisel, was brought on, and the students of Dr. Geisel were treated to several nice things conducive to health, which were prepared on the stage in the presence of her audience and passed around. Dr. Geisel is a wonder when it comes to preparing food, and her lectures have proved very instructive.

At 3 o'clock there was a reading by Miss La Dell, of the La Dell Concert Company, which was followed by a lecture, "Our Relation to the Universe," by Mrs. Laura G. Fixen of Chicago, the great temperance worker. Mrs. Fixen is a most entertaining woman, long known to the platform, and her charming lecture gave a great deal of pleasure to her hearers.

At half-past 4 o'clock the Seton Indians, who are making such a hit, had their grand pow-wow. It was one of the greatest pow-wows the Setons have ever held in Gainesville, and they conquered the audience in a clever and inimitable manner. Miss Grace Lamkin, the head medicine woman, has her work down to perfection, and is very popular with the "Setons."

At 7:45 o'clock the exercises were opened with a prelude by the La Dell Concert Company, which was followed with a lecture, by Edward Everett Carr, the subject of which was "Getting Married." Dr. Carr is a fine lecturer, as well as a fine man, and he has made many friends during his visit here.

The Chautauqua is now nearing its close, and the last program of the regular order will be held Sunday. At 9 o'clock today the school of physical education will give its last session, as will also Mrs. Geisel with her cooking school. Prof. Brown will give his Biblical lecture at 10 o'clock, and the Seton Indians will "break camp" at 3 o'clock. In the evening there will be a closing concert by the La Dell Company with final words of prophecies for 1908.

A NEW DIRECTORY.

Burtz's Gainesville Directory Will be Revised for 1907-8

Jesse E. Burtz, publisher of the Gainesville Directory, expects soon to begin work of compiling the book for 1907-8, and the work will be before the public at the proper time.

The directory for 1905-6 was a marvel in neatness and accuracy, and the publisher received the congratulations of the public and the State press upon the same. It is not only a directory, but an industrial work as well, being printed on fine book paper, well bound in cloth, and profusely illustrated with street scenes. It was a fine advertisement of the city, and a number of copies were mailed to various points in the United States and abroad.

A great improvement in the proposed work for 1907-8 will be a map of the city, which will embrace all the territory embodied in the present charter, and which will prove valuable as a matter of information.

PROPERTY STILL MOVES.

Three Lots in East Gainesville Purchased by A. O. Steenburg.

Real estate continues on the move, and scarcely a day passes but from one to a half-dozen transfers are recorded.

One of the latest important deals was the purchase Thursday by A. O. Steenburg of three handsome building lots on Roper avenue, opposite the home of J. W. Patton. These lots are 80x140, are desirably located, and among the best property in the city.

Mr. Steenburg has not yet decided, but may erect three modern cottages for rental purposes.

JUDGE MASON'S COURT.

Case of Willard Moore, Charged With Murder, Continued to Monday.

The case of Willard Moore, charged with the murder of another negro by the name of McCollough at Campville on the 2nd inst., and who was arrested in Winnsboro, S. C., and brought here by Sheriff Hood, was brought in the county court Friday, and after hearing the State witnesses the case was continued until Monday, when the witnesses for the defense will be summoned and will testify.

The case appears rather strong against Moore, and he will no doubt be committed without bail if his witnesses do not testify strongly on Monday.

Card From Mr. McEvoy.

To the Public: In full justice to my wife, allow me to say I will pay any obligation she may incur. If I have injured any others all I ask is that they kindly extend their forgiveness and I manfully promise not to offend again. I am determined to make Gainesville my home. All I ask is a fair chance and honest consideration, and if such is extended me, to those who do so they will never regret the act. Providence being my guide all I ask is the assistance of those who look to right and justice now and hereafter.

SERMONETTES

BY J. MARVIN NICHOLS

Insist on yourself; don't imitate.

Luck is knowing when your hour strikes.

Uncertainty is always an element of weakness.

To bolster a libel one must resort to falsehood.

Because we are free we are therefore responsible.

The backbone of character is made in the home.

A man who has no will of his own is characterless.

Nothing can be nobler than the frank admission of a wrong.

The theories of today seem destined to be the trash of tomorrow.

Idleness never fails to demoralize the body, mind and conscience.

Each successive birth marks one more incarnation of all the past.

The man who takes the world too serious is sure to become a pessimist.

The man that knows just a little usually gets drowned in his own depths.

The right-doer cannot ultimately fail; the wrong-doer cannot ultimately succeed.

All of us are rich or poor according to what we are, not according to what we have.

Man, woman, alone, faces a sure and certain destiny—extermination. Do you catch?

You have but to repeat a scandal in order to become a detestable peddler of the same.

The fangs of an unrequited love go deeper than any other that tear the human heart.

The world's sweetest songs have fallen from lips that knew the bitter taste of sorrow.

No foundry forges the weapon that can slay the man who stands by his honest convictions.

Because you can't do a great thing is no earthly reason why you shouldn't do a small thing in a great way.

Most men, having made a superb failure at every other thing, still contend that they are a howling success as a hubby.

Quit envying others of their success and put in a little time studying how they got there. That's the thing you most need to know.

A human hog is one whose spleen gets excited if a man makes one hundred per cent in a year on his investment in an honest way.

The low-thatched cottage—if it brings you back your own—is better than a palace whose unbroken hush presses life's sad story upon you.

Emerson declares that every reform was once a private opinion, and when it shall be a private opinion again, it will solve the problem of the age.

There never was a person with genius enough to insure success without work. If you ever reach any ambition you must literally "work your way to it."

Some for the sake of a few pennies, or the sheer chance of keeping in the lime-light, will not hesitate to heap their calumnies on a whole community.

You haven't elbow-room! That's nothing. Make a place for yourself. Dig up the virgin soil. Bore a well—all the underground streams are not tapped.

Your range of vision depends on the size of the hole through which you are peeping. The man with a small caliber never gets the larger vision of this good old world.

The man who says he married the wrong woman speaks for the one who stood by his side in the years that are gone. Did she not, therefore, marry the wrong man? The truth is, it's an unspeakable tragedy beside which all other tragedies are comedy that mock and jeer.

TIRED AND SICK YET MUST WORK

MRS. AUG. LYON

"Man may work from sun to sun but woman's work is never done."

In order to keep the home neat and pretty, the children well dressed and tidy, women overdo and often suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden.

It is to these women that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, comes as a blessing. When the spirits are depressed, the head and back aches, there are dragging-down pains, nervousness, sleeplessness, and reluctance to go anywhere, these are only symptoms which unless heeded, are soon followed by the worst forms of Female Complaints.

Lydia E. Pinkham's Vegetable Compound

keeps the feminine organism in a strong and healthy condition. It cures Inflammation, Ulceration, displacements, and organic troubles. In preparing for child-birth and to carry women safely through the Change of Life it is most efficient.

Mrs. Augustus Lyon, of East Earl, Pa., writes:—Dear Mrs. Pinkham:—"For a long time I suffered from female troubles and had all kinds of aches and pains in the lower part of back and sides, I could not sleep and had no appetite. Since taking Lydia E. Pinkham's Vegetable Compound and following the advice which you gave me I feel like a new woman and I cannot praise your medicine too highly."

Mrs. Pinkham's Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs Pinkham, at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case. Her advice is free and always helpful.

NEGRO GROWS MURDEROUS.

At First He Was Insolent, Later He Secured a Shotgun.

Adairsville, Ga., March 15.—W. D. Stewart, a highly respected citizen of this county, living between this place and Calhoun, had a very exciting experience with a negro hand recently. Frank Daniels, a negro who was employed by him, became insolent and cursed Mr. Stewart when the latter reprimanded him Monday morning for not reporting for work at the accustomed hour. Mr. Stewart struck the negro on the head with his fist, whereupon the boy secured a club and went after his employer. The latter drew his knife and struck at the negro, inflicting a slight scratch upon the side of his face. The knife was a small, old affair, with a short, dull blade, and could not do much damage.

The negro then ran home, only a short distance, and securing a shotgun, returned and concealed himself behind a straw stack with the evident purpose of assassinating Mr. Stewart.

The sheriff of Gordon county was telephoned for as soon as Mr Stewart could reach his house from the barn, the place of attack, and was upon the scene in a very short time and the negro was captured, disarmed and lodged in the Calhoun jail at once. Mr. Stewart is a highly respected citizen and excitement runs high.

New York, March 15.—A school census just completed shows that there are 688,427 children attending the schools of Greater New York, and that 953,485 persons between 4 and 18 years of age, the school age, live here. The number of foreign-born children enrolled, 113,740, is more than 18 per cent of the entire registration of the schools. Probably the most startling thing in the report is the statement that of the 58,948 children whose eyes were tested, 17,928 were suffering from defective vision. Dr. Maxwell, head of the school board, recommends that the city supplying glasses to the poor children who cannot afford to purchase them.

S. H. WIENGES,

MISSISSIPPI ROADS PROTEST.

Every Road in the State Fighting 2 Cent Fare.

Jackson, Miss., March 14.—All railroads in the state have joined in in a formal protest to the railroad commission against the enforcement of the two-cent interchangeable mileage order, and the body is requested to defer the date of operation until they can present their case.

Several days since the commission denied a similar request from the Southern railway, Louisville and Nashville, and the Mississippi Central, and it is more than likely that this new request will meet with the same fate, thus forcing the railroads to go into the courts if they desire to prevent the enforcement of the order. The members of the commission are determined to stand by their guns, and litigation is therefore inevitable.

As an auxiliary to the general chorus of discontent, the Queen and Crescent system has filed a protest against the order prohibiting the charge of four cents per mile for cash fares, and in a letter to Chairman McNair the matter is argueud at much length by General Passenger Agent George H. Smith, who also questions the legal authority of the commission to enforce a ruling of this nature.

How to Remain Young.

To continue young in health and strength, do as Mrs. N. F. Rowan, McDonough, Ga., did. She says: "Three bottles of Electric Bitters cured me of chronic liver and stomach trouble, complicated with such an unhealthy condition of the blood that my skin turned red as flannel. I am now practically 20 years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my husband's store." Guaranteed at all drug stores. Price 50c.

For Relief of Famine Sufferers.

St. Petersburg, March 15.—The Grand Duke Michael, brother of Emperor Nicholas, has given $100,000 for the relief of famine-stricken sufferers, and has sold to the peasant bank for distribution for the peasants 65,000 shares in acres of his estate in Orel province at an average price of $14 per acre. The peasants' bank have negotiated to purchase 212,000 acres of land.

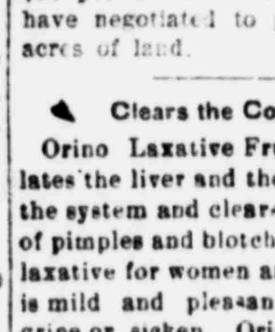
Columbus, O., March 15.—Three of the men indicted by the grand jury for accepting and giving prizes in connection with the Broad street paving pleaded guilty when arraigned. They are Nelson Cannon, former manager of the Trinidad Paving company of Cleveland; Arthur Beck, former assistant city engineer, and Alfred Shumaker, former city inspector.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.



Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. It will be a great day when trains run on time and on railroad tracks There will surely be a scarcity of scare-heads for the daily newspapers of the country.

Pneumonia now is killing over 200 people a week in Greater New York. All of the hospitals are being besieged for the admission of patients suffering from this dread ailment and these institutions are being taxed to their utmost. This probably has been one of the most unhealthful winters New York has experienced in many a year.

Application has been made for letters patent for the Tampa and West Coast Railway Company. It is the purpose of this company to build an electric railway from Tampa to Clearwater and thence to St. Petersburg. The road will be about forty miles long. Ample capital has been assured and the future of the new company looks promising.

The careless handling of dynamite at points where an explosion would inflict almost untold damage never was better exemplified than a couple of weeks ago when a large amount exploded in New Jersey, right near the water front. It had been stored there carelessly by the Pennsylvania railroad, which did not care, apparently, what would happen if anything set it off.

An important train in Texas the other day was annulled by law, having over-run the limit of delay. The law in Texas annuls any train over thirty minutes late, and when the Sunset Limited of the Southern Pacific reached Houston fifty minutes behind time, was served with annullment. A law of this character would probably have a tendency to improve the train service in Florida.

The fourth annual session of the Florida Winter Chautauqua, which is just coming to a close, was marked for its success. This Chautauqua carried one of the most varied and most expensive programs of any organization of its kind in the South, and the people are indebted to Dr. Clarence B. Stronse for the knowledge which has been imparted to them through this work. Dr. Stronse is responsible for the existence of the Florida Winter Chautauqua, as it was entirely through his efforts that the enterprise was established here. The same may be said of the Winter Bible Conference, which is one of the best advertisements Gainesville has ever had.

The Sun has been saying all along that the forest fires would prove detrimental to the people, and now they have reached a period where this assertion has proved correct. The general burning off of the woods has cost the people thousands of dollars in one way or another. Houses and miles of fences have been burned, crops and meadows have been destroyed, the naval stores and lumber interests have been hampered, and now it has come to a point where the cattle have difficulty in getting enough to eat from the unprotected ranges. As a result it is difficult to purchase Florida beef in the markets, and that which is obtainable is very poor. The market men have been compelled to resort to the handling of Western and Georgia meats, which cost the consumer a great deal more.

CAUSES FOR CONGRATULATION

Two causes for general congratulations appeared in yesterday's news reports: It was announced that the Thaw trial was drawing to a close, and that the Kansas Legislature had refused to make an appropriation for the purpose of placing a statute of John Brown in the national hall of fame at Washington.

There is, of course, no connection between the two events, and nothing in common except that both announcements are calculated to add somewhat to the modicum of national happiness.

Long ago have the people sickened of the Thaw trial, and the only remaining interest is in the result, whose speediness would be more than welcomed. It is doubtful if anything that might now be submitted would materially change the outcome of the case, unless it were the development of some heretofore hidden and remarkably applicable evidence, the probability of which is hardly to be entertained. It is time for the Thaw case to pass into history, and then somebody ought to seal and lose the record.

The Kansas case, it is true, may break forth again, but the lapse of time will only add to the improbability of its successful issue. In the meantime it is refreshing to note the absence in the Kansas Legislature of a majority of that class of cranks who would, through misguided and prejudiced sentiment, take a step that might somewhere help to block the wheels of national progress. We do not think it would disturb the people generally if Kansas erected a dozen statues to John Brown, still, there can be no doubt that the Kansas Legislature has acted wisely for the welfare of that State. Official scratching of old sores can only prolong disease that, long ago, should have been pronounced healed.—Atlanta Constitution.

Many revolutionary changes are being brought about in the confectionery trade by the workings of the new Pure Food Law. One of the most pleasing of these changes is the elimination of tons and tons of cheap candies made of glucose and colored with various minerals which tax even the proverbial digestion of the small boy. Glucose now is being made in a different manner than heretofore and it is said that the glucose industry has been obliged to spend a million dollars on new processes in order to comply with the new statutes. Mineral colors are tabooed, paraffine is on trial, and the manufacturers of cheap candy are in despair of being able to supply their old market. One of the largest of these manufacturers has gone out of business, and the ones who remain are spending their days and nights trying to figure out a way to beat the law. One result is that the manufacturers of high-grade goods are being overwhelmed with orders because dealers have not yet been able to find out what it is safe to sell in the way of cheap articles.

With a desire to cater to the wants of the people of Ocala in every way, M. Fishel, a progressive and up-to-date merchant of that city, has decided to open a 5 and 10-cent store. Hundreds of useful and ornamental creations that will make the home more beautiful and comfortable will be found there at all times. It is a move in the right direction and the people of Ocala will show him their appreciation in a substantial way. It would not be a bad idea for one of our merchants here in Gainesville to branch out into such a business.

About the only thing a man cannot understand is why the world does not think as much of him as he himself does.

The surest proof of evolution is the effort of the average man to act as though he didn't have those ancestors.

The people of Palatka who have the interests of the Gem City at heart are evidently tired of the administration which has dominated there, with the result that there has been a general revolt. The Citizen's League has been organized, and this league has had a sweeping victory, nominating twelve out of fourteen aldermen. The league has nominated also a mayor, Herbert F. Wilson, a young man well known and popular, and judging from the manner and determination of those of the Citizen's League, that organization will sweep the field. While The Sun does not attempt to assume a knowledge of politics in Palatka, but from a long personal acquaintance with Mr. Wilson we can say with impunity that the selection of the League has been a good one. Mr. Wilson would make a good and conscientious mayor, which he will no doubt prove.

The tenth annual fair of the Dade County Agricultural and Horticultural societies opened last Tuesday. This fair has increased in volume every year since it was first started ten years ago. It was then held in a tent near the Royal Palm, but now has one of the finest buildings of its kind in the South. The exhibits have increased so for the past two years that the present building is crowded to its utmost capacity. The fair is free to all and its one purpose is to show to the world the possibilities of Dade county. The public is invited to inspect it without money or price. There is no way of estimating the amount of good that it has done for Dade county. It would be a great thing for every county in the State to follow Dade's example.

That section of Kentucky long known as the feud district has been the scene during the past week of the trial of Judge James Hargis, known as the Breathitt county feud leader, who is being tried for the alleged assassination of Dr. B. D. Cox. Dr. Cox was assassinated in April, 1902, as he was passing the Hargis residence in Jackson to visit his daughter, who was ill. The result of this trial is awaited with interest.

THE SPHINX.

Nothing by Which We Can Accurately Tell Its Age.

The great sphinx of Gizeh bears no inscription by which we can tell its date. In 1816 Caviglia, who in modern times was the first to clear away the sand, found between its paws a stela of the reign of Thothmes IV., and therefore it was believed that the sphinx was carved by that monarch. But in 1858 the excavations of Mariette uncovered a stela bearing the name of Cheops, on which is a reference to the sphinx. The inscription is evidently of a late period, but is supposed to be an exact copy of an ancient carving, and the translation seemed to place the sphinx earlier than the pyramids and consequently to prove it the most ancient piece of work in the world. Still there remained four lines carved on the base which could not be read, but M. Daressy deciphered them, and it appears that the inscription is in two parts. In the earlier lines there is no mention of the sphinx, but the lines which date from the Persian occupation mention the repair of the sphinx. There is, therefore, nothing by which we can tell the date of the monument, and the only evidence we have is the headdress of the Colossus. Its hood is ornamented behind with three bands, a large one between two smaller bands. Now, this is a fashion which only existed toward the end of the twelfth dynasty in the reigns of Usurtesen III. and Amenemhat III. As this family showed much zeal for the god Harmaklin, whose portrait the sphinx is, it is probable that the monument is the work of Amenemhat III.—London Globe.

THE WALRUS ON LAND.

Is Just About as Helpless as a Canalboat Would Be.

As might be expected, a walrus is about as helpless on land as a canalboat. It is with no little difficulty and much hitching and floundering that he drags his huge bulk upon a sandy shore and with the boosting he gets from being by the breakers as they roll in to dash against him. His hind flippers are of little use on land, and on rocks or pebbles, where his front flippers do not hold well, the labor of dragging forward is so great that he rarely stirs beyond the edge of the water and usually lies with his body half in the water, with the salt spray dashing over him like torrents of rain. On smooth rock or ice he gets along much faster, and often a herd will spread out in rods back from the water's edge.

The females and younger walruses have far less development of neck to encumber them and therefore enjoy much greater freedom of motion than the old bulls, who actually seem, as a great burden to themselves. These creatures are extremely social in their habits and always go in herds, whether traveling, feeding, fighting or resting ashore. In former days before the slaughter of all these creatures became a ruling passion in the breast of man the Pacific coast inhabited the whole of Bering sea and strait in herds which often numbered thousands and even tens of thousands of individuals.

Dangers of Pneumonia.

Cold at this time if neglected is liable to cause pneumonia which is often fatal, and even when the patient recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will stop the cough, heal and strengthen the lungs and prevent pneumonia. Lagrippe will yield quickly to the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good." J. W. McCollum & Co.

Piccadilly.

The theory as to the origin of Piccadilly was put forward by Archdeacon Hearsteth many years ago. He had discovered a Piccadilly among the Hebrides, the central one of three conical hills near Ivinghoe, and he learned that this hill had at one time been known also as Peaked hill. Might not London's Piccadilly likewise be a peaked hill? No doubt the hill in Piccadilly is not remarkably high, but, then, the same thing might be said of the Derbyshire peak itself. There is another Piccadilly near Aberystwyth, and yet another near Bolton. But in the provinces one always suspects borrowing from London in such cases. There are Hyde Park Corners in provincial towns that have no Hyde park to justify them.—London Chronicle.

ORDINANCE NO. 132.

An Ordinance to Provide for, Regulate and Require the Widening of Pleasant Street in the City of Gainesville, so as to Make said Street a Forty-Foot Street From a Point Where Liberty Street Crosses said Street, Thence North to Boundary Street, for the Costs of Such Widening and the Issuance of Special Assessment City Certificates.

Be It Ordained by the Mayor and City Council of the City of Gainesville, Florida:

Section 1—That the City Attorney be and he is hereby authorized and directed to institute or cause to be instituted the necessary and proper legal steps of proceedings to acquire by condemnation, as provided by law, a strip of land, in equal proportions, along the east and west sides of Pleasant street from its intersection with Liberty street, thence north to Boundary street, of sufficient quantity to make said Pleasant street a forty-foot street in width, from Liberty street to Boundary street.

Sec. 2—That the cost of acquiring said property as provided by section one of this ordinance shall be paid by the special assessment of said cost against the property fronting or abutting upon said street where the same is so acquired, in proportion to the frontage of the property fronting thereon, said special assessment being made per front foot of the property abutting thereon. The estimated total cost of the widening of said street as herein provided is Three Thousand dollars, and the estimated amount per front foot of the special assessment to be levied upon the abutting property fronting on said street where the same shall be widened is One dollar.

Sec 3—The special assessments shall become due and payable as fast as the property herein described for the widening of said street shall be acquired, and the City Council shall as soon as practicable after the acquisition of said property meet and by resolution fix the special assessment per front foot upon the property fronting or abutting upon said street where the same is so acquired, said special assessment not to exceed the actual cost paid by the city for acquiring said property, or the estimated special assessment per front foot for such acquisition as stated herein.

Sec. 4—The City Council shall meet on the 8th day of April, 1907, at 7:30 o'clock p. m. of said day, in the Council chamber, and at said meeting shall permit any owner of or other person interested in the property against which the special assessment provided for by this ordinance shall be levied to present their objections to the enforcement of requirements of this ordinance.

Sec 5—That this ordinance shall take effect immediately upon its passage and approval.

Passed in open session of the City Council on this 7th day of March, 1907.

G. K. BROOME,
President City Council.

Attest: J. M. DELL, City Clerk.

Approved by me this 8th day of March, 1907. W. R. THOMAS, Mayor.

Attest: J. M. DELL, City Clerk.

One Thing at a Time

"I can't afford to advertise on a large scale," said a merchant lately, "and with my varied stock I wouldn't know where to begin on a small scale."

It is a common fallacy that the advertising must cover the whole stock.

In point of fact it never does, even with the most lavish advertisers, and, if it did, the result would be a jumble of prolixity. The true policy is to select one article at a time—something moderately priced and meeting the want of the day—and push that at the people.—Philadelphia Record.

8-HOUR LAW TO BE ENFORCED.

Secretary Taft Says It Must Be Observed to the Letter.

Washington, D. C., March 15.—Secretary Taft has given orders to the engineer officers of the war department to enforce to the letter the language of the eight hour law as applying to public works under their direction. This action, it is said, was taken by the secretary of his own volition after a careful examination had convinced him that the construction formerly given to the law, whereby large classes of employees were held to be exempt from its operation was erroneous. The effect of this last order, which was issued with the permission of the president, will be far-reaching, and it is predicted will greatly reduce the amount of river and harbor work that can be accomplished under the appropriations made by the last congress, large though they were.

It has been the practice of the engineers to regard the army of employees on government dredges, tugboats, snagboats and other craft pertaining to the government improvement work as exempt in large measure from the operation of the eight-hour law.

Cars Manned by Strike-Breakers.

Louisville, Ky., March 14.—The fifth day of the union employes of the Louisville streett railway company, some betterment of Wednesday's meager service about 40 cars being run up to 9 o'clock. All were manned by strike-breakers. The cars were screened with heavy wire netting to protect both motormen and conductors. The public patronized the cars to some extent but automobiles, express wagons and other vehicles continued to carry most of the passengers. The police with an added force of one hundred extra men, appear to have the situation well in hand. The mounted police have been brought in from the suburban districts and are being used to accompany some of the cars through districts which, on Wednesday and the day before, were the scenes of disorder.

Saved Her Son's Life.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppee. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when, by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold cure by all druggists. 50c and $1.00. Trial bottle free.

Will Play with Brooklyn.

New York, March 15—Tim Jordan, first baseman of the Brooklyn National League Baseball club, who made a reputation last year by making more home runs than any player in either of the big leagues, has finally signed to play in Brooklyn again the coming season. Jordan was holding out for a large salary increase.

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

Buys Four Steamers.

New York, March 15.—The Hamburg-South American company purchased the four steamers of the Robert Sloman line, the Guthrune, the Gunther, the Siegmund and the Fieglinde. The Sloman line plies between New York and the Brazilian ports. The Hamburg-American also announced that there will soon be a passenger service between Hamburg and Galveston, Tex.

Killed Fve Men Every Day.

St Petersburg, March 15.—Statistics published regarding the drumhead courtmartials show that up to March 5, when the activity was suspended by Premier Stolypin, on account of the opening of parliament, 764 persons were executed, an average of almost five daily. The majority of the executions occurred in Poland and the Baltic provinces.

Worked Like a Charm.

Mr. D. N. Walker, editor of that spicy journal, The Enterprise, Louisa, Va., says: "I ran a nail in my foot last week and at once applied Bucklen's Arnica Salve. No inflammation followed; the salve simply healed the wound." Heals every sore, burn and skin disease. Guaranteed at all drug stores. 25c.

Will Be Big Surplus.

Asuncion, Paraguay, March 15—A meeting of bankers and merchants was called by the minister of finance at which that official declared that in view of the conflicting rumors he was in duty bound to make a statement about the situation. He announced that there would be a big surplus in spite of increased expenditures.

No Arrangements for Attractions.

Montgomery, Ala., March 15.—What the summer attractions at Electric Park will be this year are not yet known General Manager W. H. Ragland said Thursday that Wells' amusements may and may not be the selection. He said he was in correspondence with other amusement companies.

The New Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.
